
JOURNAL OF DENTISTRY

An International Journal for Clinical Dental Science

Volume 29 2001

PII: S0300–5712(01)00062–8

Volume Contents

Volume 29 Number 1 — January 2001

Eighteen-month clinical evaluation of a filled and unfilled dentin adhesive 1
E.J. Swift Jr., J. Perdigão, H.O. Heymann, A.D. Wilder Jr., S.C. Bayne, K.N. May Jr., J.R. Sturdevant and T.M. Roberson

Composite resin restoration and postoperative sensitivity: clinical follow-up in an undergraduate program 7
M. Unemori, Y. Matsuya, A. Akashi, Y. Goto and A. Akamine

The bio-availability of fluoride from black tea 15
A. Simpson, L. Shaw and A.J. Smith

Daily exposure to fluoride mouthrinse produces sustained fluoride release from orthodontic adhesives in vitro 23
P.C.M. Benington, T.J. Gillgrass, R.H. Foye, D.T. Millett and W.H. Gilmour

Short communication
Psychological condition of patients complaining of halitosis 31
T. Oho, Y. Yoshida, Y. Shimazaki, Y. Yamashita and T. Koga

Influence of pH and storage time on the sorption and solubility behaviour of three composite resin materials 35
U. Örtengren, F. Andersson, U. Elgh, B. Terselius and S. Karlsson

The effect of Nd:YAG pulse duration on dentine crater depth 43
A. McDonald, N. Claffey, G. Pearson, W. Blau and D. Setchell

Bond strength of composite to dentin using conventional, one-step, and self-etching adhesive systems 55
S. Bouillaguet, P. Gysi, J.C. Wataha, B. Ciucchi, M. Cattani, C. Godin and J.M. Meyer

A comparison of the mechanical behavior of posterior teeth with amalgam and composite MOD restorations 63
D. Arola, L.A. Galles and M.F. Sarubin

Comparison of methods for measuring cuspal deformation in teeth 75
J. Jantarat, P. Panitvisai, J.E.A. Palamara and H.H. Messer

Volume 29 Number 2 — February 2001

Dental caries-protective agents in milk and milk products: investigations in vitro 83
T.H. Grenby, A.T. Andrews, M. Mistry and R.J.H. Williams

The relationship between headache and symptoms of temporomandibular disorder in the general population 93
R. Ciancaglini and G. Radaelli

The propensity of individual saliva to cause extrinsic staining in vitro—a developmental method 99
S. Sheen, N. Banfield and M. Addy

Investigation of an index to measure tooth wear in primary teeth 103
M.I. Al-Malik, R.D. Holt, R. Bedi and P.M. Speight

The effect of cavity restoration variables on odontoblast cell numbers and dental repair 109
I. About, P.E. Murray, J.-C. Franquin, M. Remusat and A.J. Smith

Inhibition of bacterial and glucan adherence to various light-cured fluoride-releasing restorative materials 119
K. Kawai and T. Takaoka

Marginal quality and microleakage of adhesive class V restorations 123
J. Manhart, H.Y. Chen, A. Mehl, K. Weber and R. Hickel

The evaluation of four conditioners for glass ionomer cements using field-emission scanning electron microscopy 131
M. Tanumiharja, M.F. Burrow, A. Cimmino and M.J. Tyas

Shear bond strengths of three resin cements to dentine over 3 years in vitro 139
Y. Kitasako, M.F. Burrow, N. Katahira, T. Nikaido and J. Tagami

Association between microtensile bond strength and leakage in the indirect resin composite/dentin adhesively bonded joint 145
S. Guzmán-Ruiz, S.R. Armstrong, D.S. Cobb and M.A. Vargas

Volume 29 Number 3 March 2001

Challenges with studies investigating longevity of dental restorations—a critique of a systematic review 155
B. Chadwick, E. Treasure, P. Dummer, F. Dunstan, A. Gilmour, R. Jones, C. Phillips, J. Stevens, J. Rees and S. Richmond

Influence of Carisolv™ for resin adhesion to sound human primary dentin and young permanent dentin 163
Y. Hosoya, Y. Kawashita, G.W. Marshall Jr and G. Goto

Factors affecting patients' and potential patients' choices among anaesthetics for periodontal recall visits 173
D.C. Matthews, A. Rocchi and A. Gafni

Plaque, gingival health and post-operative sensitivity in titanium inlays and onlays: a randomized controlled clinical trial 181
M.H. Walter, B.H. Wolf, A.E. Schmidt, K.W. Boening and R. Koch

Comparison of three types of fiber-reinforced composite molar crowns on their fracture resistance and marginal adaptation 187
M. Behr, M. Rosentritt, D. Latzel and T. Kreisler

The effect of acquired salivary pellicle on the surface free energy and wettability of different denture base materials 197
C. Sipahi, N. Anil and E. Bayramli

Effect of mixing methods on the compressive strength of glass ionomer cements 205
R. Nomoto and J.F. McCabe

Mineralization in bovine dentin adjacent to glass-ionomer restorations 211
M. Hotta, Y. Li and I. Sekine

Fracture resistance of dentin-composite interfaces using different adhesive resin layers 217
L.E. Tam, S. Khoshand and R.M. Pilliar

Effect of primers containing N-methylolacrylamide or N-methylolmethacrylamide on dentin bond durability of a resin composite after 5 years 227
T. Fukushima, Y. Inoue, K. Miyazaki and T. Itoh

Volume 29 Number 4 May 2001

Reasons for extraction by dental practitioners in England and Wales: a comparison with 1986 and variations between regions 237
D. Agerholm

Can dentures improve the quality of life of those who have experienced considerable tooth loss? 243
C. McGrath and R. Bedi

Prevention of pit and fissure caries using an antimicrobial varnish: 9 month clinical evaluation 247
R.M. Joharji and J.O. Adenubi

The effect of fluoridated and non-fluoridated rewetting agents on in vitro recurrent caries 255
A. Itthagarun, N.M. King, J.S. Wefel, F.R. Tay and D.H. Pashley

A randomised, controlled and blinded histological and immunohistochemical investigation of Carisolv™ on pulp tissue 275
C. Young and U. Bongenhielm

Histocytological evaluation of the reaction of rat pulp tissue to Carisolv 283
T. Dammaschke, U. Stratmann, K. Mokrys, M. Kaup and K.H.R. Ott

A laboratory investigation of the role of guide planes in the retention of cast cobalt-chromium alloy partial denture frameworks 291
M. Ali, N.E. Waters, R.I. Nairn, F. West and M. Sherriff

Fluoride release/uptake of conventional and resin-modified glass ionomers, and compomers 301
W. Gao and R.J. Smales

Volume 29 Number 5 July 2001

Conference report
Direct adhesive materials: current perceptions and evidence—future solutions 307
N.H.F. Wilson

Influence of patient factors on age of restorations at failure and reasons for their placement and replacement 317
F.J.T. Burke, N.H.F. Wilson, S.W. Cheung and I.A. Mjör

Does social deprivation in 1, 2, 3 and 4-year-old Scottish infants influence the frequency isolation of caries-associated micro-organisms? 325
J.R. Radford, H.M. Ballantyne, Z.J. Nugent, M. Robertson, C. Longbottom, N.B. Pitts, D. Beighton and S.R. Brailsford

Dental erosion in deciduous teeth—an in vivo and in vitro study 333
A.-K. Johansson, R. Sorvari, D. Birkhed and J.H. Meurman

Transdentinal stimulation of reactionary dentinogenesis in ferrets by dentine matrix components 341
A.J. Smith, R.S. Tobias and P.E. Murray

Free-electron laser etching of dental enamel 347
E.J. Swift Jr, G.S. Edwards, J. Perdigão, J.Y. Thompson, M.F. Nunes, D.E. Ruddell and A. Negishi

In vitro analysis of the effects of acid or laser etching on microleakage around composite resin restorations 355
A. Rüya Yazici, M. Frentzen and B. Dayangac

An investigation of cuspal deformation and delayed recovery after occlusal loading 363
J. Jantarat, J.E.A. Palamara and H.H. Messer

In vitro remineralisation of eroded enamel lesions by saliva 371
B.T. Amaechi and S.M. Higham

Reinforcement effect of short glass fibers with $CaO-P_2O_5-SiO_2-Al_2O_3$ glass on strength of glass-ionomer cement 377
F. Kawano, M. Kon, M. Kobayashi and K. Miyai

Volume 29 Number 6 August 2001

Review
Gingival recession—its significance and management 381
A. Tugnait and V. Clerehugh

The measurement and prevention of erosion and abrasion 395
A. Azzopardi, D.W. Bartlett, T.F. Watson and M. Sherriff

The reasons for the extraction of various tooth types in Scotland: a 15-year follow up 401
L.K. McCaul, W.M.M. Jenkins and E.J. Kay

An evaluation of the acidogenic potential of maltodextrins in vivo 409
G.R. Al-Khatib, M.S. Duggal and K.J. Toumba

Investigation to evaluate and validate the Leeds in situ device for the study of enamel remineralisation in vivo 415
R.C. Shore, J. Kirkham, D. Devine, P. Marsh, B. Nattress and C. Robinson

Acid resistance of human enamel in vitro after bicarbonate application during remineralization 421
K. Tanaka and Y. Iijima

Fracture strength and survival rate of endodontically treated maxillary incisors with approximal cavities after restoration with different post and core systems: an in-vitro study 427
G. Heydecke, F. Butz and J.R. Strub

A morphological and tensile bond strength evaluation of an unfilled adhesive with low-viscosity composites and a filled adhesive in one and two coats 435
M.A. Japiassú Resende Montes, M.F. de Goes, M.R. Bernardi da Cunha and A. Borges Soares

An evaluation of the technique sensitivity of a hydrothermal low-fusing dental ceramic 443
W.M. Palin, G.J.P. Fleming and P.M. Marquis

Volume 29 Number 7 September 2001

Review
Systematic review of population-based epidemiological studies of oro-facial pain 451
T.V. Macfarlane, A. Glenny and H.V. Worthington

Mercury-reactive lymphocytes in peripheral blood are not a marker for dental amalgam associated disease 469
D.C. Henderson, R. Clifford and D.M. Young

Palpation of the lateral pterygoid region in TMD—where is the evidence? 475
J.C. Türp and S. Minagi

Clinical evaluation of replacement of class V resin based composite restorations 485
V.V. Gordan

Ultrastructural study of a glass ionomer-based, all-in-one adhesive 489
F.R. Tay, H. Sano, J. Tagami, M. Hashimoto, K.M. Moulding, C. Yiu and D.H. Pashley

Evaluation of the F2000 bonding procedure: a high resolution SEM study 499
L. Breschi, P. Gobbi, M. Falconi, L. Ciavarelli, G. Teti and G. Mazzotti

Volume 29 Number 8 November 2001

Review
Systematic review of adherence to infection control guidelines in dentistry 509
B.L. Gordon, F.J.T. Burke, J. Bagg, H.S. Marlborough and E.S. McHugh

The erosive effect of herbal tea on dental enamel 517
P.A. Brunton and A. Hussain

Effect of CO_2 laser on pulpal temperature and surface morphology: an in vitro study 521
H.S. Malmström, S.M. McCormack, D. Fried and J.D.B. Featherstone

Analysis on the nature of thermally induced deformation in human dentine by electronic speckle pattern interferometry (ESPI) 531
A. Kishen, V.M. Murukeshan, V. Krishnakumar and A. Asundi

The effect of luting media on the fracture resistance of a flame sprayed all-ceramic crown 539
A.M. Casson, J.C. Glyn Jones, C.C. Youngson and D.J. Wood

Flexural creep deformation and recovery in dental composites 545
J. Vaidyanathan and T.K. Vaidyanathan

Effect of exposure intensity and post-cure temperature storage on hardness of contemporary photo-activated composites 553
S.C. Quance, A.C. Shortall, E. Harrington and P.J. Lumley
